

HEALTHCARE ADVANCEMENT

Rudder Reid Charitable Foundation

STANDING with communities

MOVING towards personal healthcare for all

Providing the best healthcare for all will continue to be a national challenge. As the trustees of the D. Michael A. Rudder and Susan E. Reid Charitable Foundation and their families have benefitted from access to high quality healthcare, it is fitting that the Foundation prioritises contributing to this defining Canadian mission.

The Trustees will from time to time determine amounts that the Foundation will transfer to selected approved healthcare delivery organizations including, for example, the Aberdeen Health Foundation, New Glasgow, Nova Scotia, Cape Breton Regional Hospital Foundation, Sydney, NS and Northside/Harbourview Hospital Foundation, North Sydney, NS and others.

Similarly, the trustees – having benefitted from healthcare services in Barbados – would like to contribute to access there by providing the Queen Elizabeth Hospital, Bridgetown, Barbados with specific medical equipment acquisition assistance.
